

GLORIOUS FOR A 100 YEARS

1909, the year where the 2 famous Austrian scientists, Trenka & Paoli reached the outstanding combination of Eucarbon. Upon their brilliant observation of the most commonly used 6 ingredients, to manage effectively and safely mal-digestion & colon disorders, they formulated this exceptional product. Whereas Vegetable Charcoal considered to be the most potent adsorbant agent, to relief distension, pollutants & diarrhea.

Rhubarb, Senna & Sulphur activate intestine to get rid of dyspepsia and constipation (commonly associated with colon patients). Fennel oil & Peppermint eliminate spasm and grant colon patient a sensation of relief & refreshment. Thus, no wonder Eucarbon is leading the market in 56 countries. In attempting to provide the drug, with the highest quality, Trenka has chosen Sedico Factories to manufacture Eucarbon with its well known state of art technology. Sedico by leading the field of Biotechnology in the Middle East, was granted multiple credentials & certificates of high quality production. Sedico in contribution with Austrian Trenka held a Grand Centennial Celebration for Eucarbon.

Celebration was honored by the attendance of the prominent leaders of medical staff of the country, headed by Prof. Dr. Mohamed Awad Tag Eldin (ex-minister of Health) . Prof. Dr. Mazen Naga, Prof. Dr. M. Marhi Makhout, Prof. Dr. Hussein Okasha, and Prof. Dr. Abdelmagid Kassem with the participation of 600 of GIT consultants and specialists. The celebration was held in Four Seasons - Plaza Hotel. A real Egyptian atmosphere overwhelmed the celebration comprising folkloric music bands and dancers. Oriental customs and food cargos decorated the place. Prof. Dr. Hossam Aboulenein (Vice-President and CEO) and Mrs. Michaela Kamler (Chairman of Trenka) distributed awards to winner contestant physicians, which comprised trips to Sharm El-Sheikh and Hurghada and valuable electric equipments. Hence, Sedico will keep its track, in collaboration with multiple multinational companies to provide patients in Egypt, in the Arab World and in multiple regions over the world, with the most chosen and preferred drugs. Not only with highest quality standards, but also considering the Social and Economic aspects, to provide it with best prices obtainable.
